Mario Runco, the President of Harris County Water Control and Improvement District No. 50, gave a presentation to the Mayor and Council stating he wanted to clarify information that was previously provided to Council by the Floodplain Administrator at the meeting held on December 4, 2019, regarding the joint funding request letter to the Harris County Flood Control District to construct drainage improvements.
5. **Adjourn Workshop session and move meeting back into regular session** – Mayor Skelton adjourned the Workshop at 7:00 P.M. and called a recess and there were no objections. The Mayor moved the meeting back into regular session at 7:11 P.M.
6. **Citizen Comments**
Joan Schneck of 522 Seaway Drive thanked the Council and the City staff for providing the senior exercise classes. She stated that she is concerned about the house located at the 500 block of Seaway Drive because it appears to be abandoned. She is worried that trouble could take place due to the unsecured fencing on the property. Mayor Skelton informed her that this would be addressed.

Linda Schoene of 327 Pebblebrook stated that she is concerned about the number of people who are speeding on her street and is worried about the welfare of the children playing on the street if the speeding continues.

Tom Merchant of 315 Oak View Circle informed Council that he plans to continue as the Emergency Management Coordinator and requested that he be placed on the agenda for the Council meetings which take place on the second session of each month to give a report. Mayor Skelton stated this would be done.

Deanna Scott of 109 Bayou View Drive stated that she would like to see the fence repaired at the entrance of the Bayou View entrance because it is falling down. She said she has been told that it belongs to the businesses but she wants it to be fixed. She also questioned if any action is being taken about the empty lot on NASA Parkway where the hardware store was located. Mayor Skelton informed her that the City is working on this.

Jeff Tave of 302 Pineview Circle thanked the City for supporting La Ventana with luminaria sales. He stated he was concerned that the recycling was not picked up for three weeks over the holidays and requested that the City work on this so that it does not happen again. Mayor Pro Tem Vernon stated that she talked to AmeriWaste prior to the holidays and requested this but she was told that their trucks were committed to other cities which prevented additional trash pick-ups.
7. **City Official, Board, Commission, Committee, & City Service Report**
 - 7.1. *SVFD Monthly activity report* – Andy Gutacker went over the SVFD monthly report for December, 2019. He stated there were two calls, one of which was a medical call, and the other was an alarm call. He also

reported that there was a car fire behind Gabacho's Restaurant that was extinguished without damage to the restaurant. He warned about leaving burning candles unattended which causes a significant number of fires. There were no calls about fireworks on New Year's Eve.

- 7.2. *LPD Commissioner Michael O'Brien to report on LPD Commission activity* - Michael O'Brien went over the Strategic Traffic Report and stated there were more stops with an increase in the number of warnings issued. There were no calls regarding fireworks on New Year's Eve. He reported that the police are focusing more on stops within the community than on NASA Rd 1. Mayor Skelton informed him that there have been several complaints about speeding vehicles on Cedar Lane and Pebblebrook. Mr. O'Brien stated he would meet with Chief Savage about those complaints. He reported that there is still a shortage of two officers but they are still interviewing candidates. Mr. O'Brien stated that he followed-up on the problem reported at the December 4, 2019 meeting at the home on Tallowood and there are currently three cases pending. He suggested that the Mayor speak with the prosecutor about these cases. He went over the Ordinance Enforcement Report and Councilperson Michalak asked about the home at 307 Shadow Creek. Mr. O'Brien stated that the case was dismissed due to the yard being mowed. He stated he will ask the officer to check the house again.

8. Council Member's Reports

- 8.1. *Mayor Pro Tem Vernon to discuss the construction of a masonry fence behind Loch Lake* - Mayor Pro Tem Vernon reported that the residents are exposed the potential commercial property behind Loch Lake. She stated she reached out to Jeremy Philips with Harris County to see what can be done but she has not yet heard back from him. She also reached out to the City of Seabrook and was told that the residents would be required to fence the area since Seabrook dose not require businesses to construct privacy fences. The owner of the property has cleared the land for sale and it is zoned as light industrial commercial. Mayor Pro Tem Vernon said she then contacted Brooks Concrete and was given a quote for a ten foot wall which would be about \$75 per linear foot. There are ten houses along that fence line so it is about 500 feet in length. This roughly comes to a cost of \$37,000. She suggested the possibility of the County helping with funding but she is still looking at options. Mayor Skelton said he would like to place this on a future agenda later in February.

9. Consent Agenda

- 9.1. *Check Detail for checks printed from December 19, 2019 through January 8, 2020*
9.2. *Minutes from the Public Hearing and Council Meeting of December 18, 2019*
Councilperson Michalak made a motion to approve the consent agenda and Mayor Pro Tem Vernon seconded. The vote was unanimous to approve.

10. New Business

- 10.1. *Consider/Approve the joint letter of support for the WCID #50 storm drainage project*- Mayor Pro Tem Vernon made a motion to approve and there was a second by Councilperson Clark. The motion passed unanimously.
10.2. *Consider/ Approve the General Mobility Program Agreement submitted by the Metropolitan Transit Authority* – Mayor Pro Tem Vernon stated that the agreement refers to El Lago as a Home Rule City and the City is actually a General Law City so that would need to be corrected. Additionally, the agreement will extend to the year 2040 without a funding increase. In 2026 it shows that the funding would be cut \$99,000 for that year. She stated she would like to know what the other thirteen METRO Multi Cities are doing regarding this agreement. Mayor Skelton stated that the agreement will be sent to the City Attorney with these questions. A motion to postpone was made by the Mayor Pro Tem and seconded by Councilperson Findley. The vote was unanimous to postpone.

Why a permit?

Your home or business is an investment. If your construction project does not comply with the codes adopted by the city, the value of your investment could be reduced. Property insurers may not cover work done without permits and inspections. If you decide to sell a home or building that has had modifications without a permit, you may be required to tear down the addition, leave it unoccupied or do costly repairs.

A property owner who can show that code requirements were strictly and consistently met, as demonstrated by the Building Inspector's carefully maintained records, has a strong ally if something happens to trigger a potentially destructive lawsuit. Your permit also allows the code official to protect the public by reducing the potential hazards of unsafe construction and ensuring public health, safety and welfare. By following code guidelines, your completed project will meet minimum standards of safety and will be less likely to cause injury to you, your family, your friends, or future owners.

RESOLUTION 2019-04

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EL LAGO, TEXAS, ADOPTING A TEMPORARY BUILDING PERMIT FEE SCHEDULE FOR THE CITY.

WHEREAS, the City of El Lago's Code of Ordinances, Chapter 4, Section 4-24. Fees. Provides that changes, additions, or deletions to the schedule of fees for the review of applications and granting of permits and for the required inspection shall be by city council resolution and shall be effective after being posted in a public place for fourteen (14) days following council approval; and

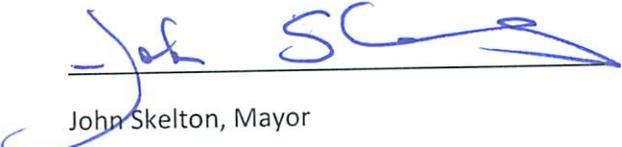

WHEREAS, the City Council adopted the current Building Permit Fee Schedule in September 2013; and

WHEREAS, certain changes in state legislation on May 21, 2019, effective immediately, prohibiting cities to issue building permits or inspection fees based on the cost of construction or improvement and requiring the disclosure of information related to its' value; and

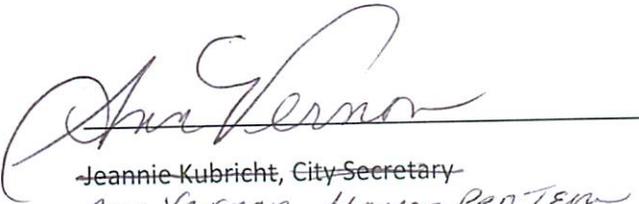

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of El Lago:

That the City of El Lago hereby adopts a temporary Building Permit Fee Schedule with the effective date of June 5, 2019 until additional data can be retrieved, reviewed, and approved by City Council at a later date, attached in Exhibit A.

January 16, 2020

City Council Report

Shawn Findley Council Position 1

City of El Lago Building Department Schedule of Fees

In reviewing the historical permit data from FY 16 thru FY 19 the following averages will make a case for increasing the city's permit fee schedule. This permit fee schedule will ensure our inspector cost and the administration cost of our front office is captured.

Historical data	Number of Permits	Revenue	Average per permit
FY16	274	\$23,225	84
FY17	299	\$30,970	103
FY18	371	\$32,469	87
FY19 to 6/5/19	245	\$24,222	98
FY19 from 6/5/19	000	\$00,000	00
	-----	-----	-----
Total Averages	300	\$30,000	\$90.00

At the current \$50.00 per inspection I multiplied the average 300 permits sold per year as follows,

200 permits sold @ \$50.00 would equal \$10,000

100 permits sold @ \$100.00 would equal \$10,000

Total Revenue of \$20,000 which is less than the current average of \$30,000.

The largest hole that I see with the current fee schedule is no accounting for new construction and large remodels to houses. In the interest of capturing all the city's cost for providing an invaluable service to our citizens and the safety of our city I think we should discuss adapting the attached fee schedule that TLV is currently using, it covers the areas that our schedule is missing and increases the permit fees to a number that is closer to our average permit fee revenue.

The second need we are facing in regards to permitting in El Lago is the quality of the inspection process, we have had a number of citizen complaints that inspections are either not being completed and or are not worth the cost of the permit for the inspection performed. In the future we need to address what is expected from our inspector and or agency that performs

the city's inspections. Of course, this will increase the operating cost of the inspection process and this increase will help offset and future needs for the city's permitting process. Just FYI an independent inspection firm cost \$200 - \$300 per inspection and I am pretty sure a new part time inspector is going to cost more in the future.
