Aqua Step ADA - 5 Step

Aqua Step ADA has been designed to meet or exceed new ADA mandates for 2012. It is portable and very durable, yet lightweight, and has an exclusive limited lifetime structural frame warranty. The Aqua Step ADA incorporates a custom approach platform design based on the swimming pool deck/wall/floor profile that must be provided when ordering.

Features:

- Shielded treads that enclose the riser area.
- 11" of exposed tread/foot strike area for safe forward entry.
- 24" wide railings.
- OSHA quality non-skids surfaces.
- Hand rails extend 12" onto top entry platform and one tread width beyond bottom step.
- Weight capacity is 600 lbs.

Specifications:

- Constructed of extruded high density plastic frame.
- Aluminum reinforced UVA plastic railings with fluted PVC for enhanced grip and durability.
- All stainless steel treads and hardware.
- Shipping Weight: 180 lbs.

- Available in two configurations - standard and long. (This is for the standard ramp)
- Standard ramp designed for pools 48" and under from pool floor to deck surface
- Long Ramp designed for pools over 48" from pool floor to deck surface
- Elevation kits for decreasing the slope of ramp are available upon request
- Handrails provide excellent stability
- Noncorrosive metal skeleton encased in rigid PVC skin

Designed as a practical solution for aquatic access, the AquaTrek Ramp lets people of all ages and abilities enter and exit the swimming pool with ease. The AquaTrek Ramp is available in two sizes, a standard or a long. The long ramp system is used for pool facilities that have depths of 48-inches or greater from pool floor to deck surface. The longer length allows the slope of the ramp to be decreased to accommodate the extra depth.

Adjustable to Varying Pool Depths

Special, Non-Skid Treads on Each Step

Modifiable to Accommodate Any Gutter System

Simple Installation and Removal

Lightweight and Portable

Built on Wheels for Easy Transport

Non-corrosive metal skeleton enclosed in a rigid PVC skin.

All fasteners are made of 304 stainless steel.

Deck anchors made of cast bronze.

Wheels are mounted to an impact and shock resistant nylon hub with gray non-marking tread.

Treads, platform and approach frame are made from injection molded PVC with added UV stabilizer.

Safety strips on the treads and platforms are a non-slip material.

30" wide treads.
